1. Last week the press reported the cassation of one Fidelis Dalcir Barbosa, or Fidelis Jaci Barbosa depending on which paper you read. According to one report Barbosa is a teacher at the secondary level, but according to another he is a university professor.

2. Despite exhaustive but discreet checks of all sources available to the Consulate including the Secretary of Security, DOPS, the Army etc., we have been unable to identify this individual or even verify that he exists.

3. Comment: The incident is of interest, if the newspaper reports are to be believed, only because this is the first cassation in the educational area in Rio Grande do Sul.
